

Intro to New, Improved Venture Academy

- There is no One-Size-Fits-All educational model.
- We realize that teachers also vary in their approaches and methods. Specialized instructors will team-teach All Venture students.
- The first and third categories are tried, tested and proven effective at the Bennett Academies for up to 29 years. The second is a new -to -us approach that has been effective for academically prone students for over a hundred years. It will address learning styles of Generation Alpha* age students (born between early 2010s until now.)

Bennett atmosphere & Character
